DETAILED ACTION

Claim Objections

1. Claims 9-10 and 12-13 recite the limitation "transmissive screen" in line 1 of each claim. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

2. Claims 1-8 and 11 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 8, the prior art or record neither shows nor suggests a microlens array portion arrayed in a first direction and a second direction, with adjacent microlenses having common sides, the first direction being rotated by 45° with respect to the horizontal direction, the second direction being perpendicular to the first direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Aoyama et al. (US Patent Number 5,694,246) discloses a method of manufacturing a lens array.

5. This application is in condition for allowance except for the following formal matters:

There is insufficient antecedent basis for the limitation "transmissive screen" in claims 9-10 and 12-13.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
